Aquila Archaeology is seeking a qualified archaeologist starting immediately.

The position involves joining a team whose goals are to conduct high quality research and results. This is an outstanding opportunity for someone who is passionate about archaeology and who wants to work in a growing company and live on Vancouver Island.

The candidate must have verified and current abilities as an Archaeology Branch approved field director and permit holder of both s.12 and s.14 permits for the Northwest Coast.

Candidate Qualities:

- Manage constructive relationships with First Nation communities, proponents and various levels of governmental stakeholders
- Demonstrated commitment to the discipline of archaeology
- Comprehensive understanding of various approaches and archaeological perspectives
- Established foundation of Northwest Coast archaeological knowledge
- Excellent identification and analysis skills of Northwest Coast material culture
- Contributes to improving what is known about the archaeological record
- Strong commitment to ethical archaeological practice
- Ability to manage schedule and fulfill multiple deadlines
- Clear communicator both verbally and in writing
- Ability to create high quality digital graphics such as maps
- Production of well-written reports in a timely manner
- Physically capable of all aspects of fieldwork in various seasons and conditions
- Work with proponents to identify project scope and develop proposals
- Demonstrated report writing abilities to meet current standards

Preferred Qualifications:

- ArcGIS fluency
- Master's degree
- Qualifies for membership in the Register of Professional Archaeologists (RPA)

Qualifications:
