March 26, 2020

During the Covid-19 crisis, we have had to make the difficult decision to suspend all fieldwork in order to protect our workers, their families and First Nation communities who may have increased vulnerabilities due to systemic barriers related to health and wellness. However, please be rest-assured that as soon as the danger to public health has passed, we will resume fieldwork and normal operations immediately.

Our office is closed to the public but we continue to work on your important projects at home offices. We are making every effort to flatten the curve and support our health care workers and elders by self-isolating.

We are still taking your calls and responding to emails and continuing our efforts to conserve, protect, and learn about the valuable archaeological heritage of BC.

Thank you,

Aquilla Archaeology
